

# NIVÅ Sound absorbent

AKUSTIKMILJÖ // ENVIRONMENT-FRIENDLY SOUND ABSORBENTS WITH FOCUS ON FUNCTION & DESIGN

NIVÅ has an interesting 3-dimensional expression with focus on form and function.

NIVÅ is a sound-absorbing contrast wall produced in cooperation with three designers – Camilla Tillberg, Gill Weibull and Maria Holmgren. The idea was to create a sound absorbent where the design was just as important as the function. The result is an exciting, varying wall module of polyester fibre with a flocked surface on different levels.

## Advantage

- **Unique design:** The design is unique and creates a different and interesting 3-dimension expression.
- **Quality & Environment:** NIVÅ is made from EcoSUND®, a high-class sound absorbent, class A. EcoSUND consists of recycled PET-bottles and plant fibres.
- **Colour:** NIVÅ is available in several

colours, i.a. red, green, grey, black and white.

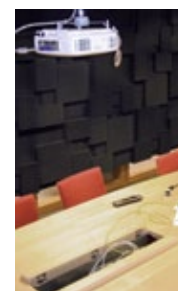

- **Levels:** Unique 3-dimensional design where the shape also makes the sound waves spread (diffusion).
- **Options:** The absorbent can be turned 360° in four steps which increases the individual design possibilities.

-66%

"The efficiency at a working place can be reduced with as much as 66 percent as a result of disturbing sounds."

JULIAN TREASURE

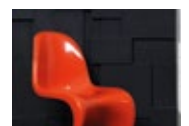

## Fields of application

Conference room

Hifi-room

Feature wall

## Size

- 600x600x30-80 mm

## Colour

As standard, Nivå is manufactured in black and grey, but can be manufactured in several other colours such as red, white or green.

## Mounting

NIVÅ is naturally installed on the wall surface and thus creates a stimulating décor. It is mounted close onto the wall with pre-stamped suspension holes on the back part or, as an alternative, it can be obliquely screwed directly against the wall. The absorbent can be turned 360° in four steps, which increases the individual design possibilities.

## Acoustic qualities

Carried out by SP, the National Swedish Testing Institute, according to ISO 354 and ISO 11654

Frequency Hz	63	125	250	500	1'	2'	4'	$\alpha_w$
Absorption factor	0,10	0,35	0,65	0,85	0,80	0,85	0,90	0,85

## About EcoSUND®

- **Environment-friendly:** EcoSUND is made from recycled PET-bottles and plant fibres.
- **No leaking:** EcoSUND is completely free from glue/binding agents and therefore does not give off any emissions or gas.
- **Stand up to moisture:** EcoSUND is not sensitive to damp and moisture and therefore cannot rot or mould.
- **No harmful fibres:** EcoSUND does not give off any itching or irritating fibres that may cause allergic reactions.

### ALLRUM

Allrum is young, Swedish design, with activities in Stockholm. Allrum works with modern and room-creating product design with its base in a textile world of patterns. Allrum was founded in the spring of 2006 by Marie Holmgren, Camilla Tillberg and Gill Weibull – all of them with a master's degree from the textile programme at the College of Arts, Crafts and Design 2005.

### WHY AKUSTIKMILJÖ?

- Market leader when it comes to environment-friendly sound absorbents
- Absorption class-A on all products
- We offer a sustainable acoustic solution with environment and health in focus
- Our own production ensures an even and high quality

## Cleaning

Clean with a dry brush/broom or with a vacuum cleaner. If very dirty, clean with cold water, a cloth and a gentle washing up, washing or cleaning detergent.

## Fire

NIVÅ has been tested by the National Swedish Testing Institute, SP, and found non-flammable according to NT FIRE 002.

## Prescription
